Education

Degree Programmes

- Sep 2025 – **MPhil Linguistics**, *University College London*, London, UK
Jun 2027 **Thesis:** *Harmonic Pragmatics: Cumulative Constraint Interaction in the Selection of Alternatives* (Supervisor: Dr. Mario Giulianelli)
Research Focus: Formal Semantics of Number and Quantification, Numerical Cognition, Probabilistic & Decision Theoretic Pragmatics, Philosophy of Language & Cognitive Science.
- Sep 2022 – **BSc Experimental Linguistics**, *University College London*, London, UK
Jun 2025 First Class Honours
Thesis: *Clusters and Numeral Imprecision in Quasi-Count Nouns* (Grade: 78/100, Supervisor: Prof. Yasutada Sudo)
Coursework: Formal/Experimental Semantics & Pragmatics, Computational Linguistics, Logic, Formal Epistemology, Probability Theory

Non-Degree Programmes

- Jul 2026 – **7th Crete Summer School of Linguistics**, *University of Crete*, Rethymno, Greece
Aug 2026 Courses on Diachronic Semantics, Formal Pragmatics, Sign Language Linguistics, Human Evolution, Impossible Languages and Tenselessness.
- Oct 2024 – **Japanese Evening Classes**, *UCL Centre for Languages & International Education*, London, UK
March 2026 Completed Levels 1 – 3. Curriculum aligned approximately with JLPT N5 - N4 proficiency levels.
- Jul 2024 – **European Summer School in Logic, Language and Information**, *Katholieke Universiteit Leuven*, Leuven, Belgium
Aug 2024 Courses on Game & Decision Theory, Intuitionistic Modal Logic, Neighbourhood Semantics, Event and Degree Semantics, and Combinatory Categorical Grammar.
- Aug 2023 **Complex Systems Summer School**, *Universiteit Utrecht*, Utrecht, Netherlands
Courses on Computational Biology, Social Complexity, and Macroeconomics, with a focus on interdisciplinary methods and social impact.
- Mar 2023 **Spring School in Cognitive Modeling**, *Rijksuniversiteit Groningen*, Groningen, Netherlands
Explored symbolic, probabilistic, and neural cognitive models including ACT-R, Nengo, and PRIMs, with lectures on Reinforcement Learning and Dynamical Systems.

Academic Research Interests

- Broad Formal Semantics & Pragmatics, Philosophy of Language, Cognitive Psychology, Computational Linguistics.
- Narrow Alternatives, Scalar Implicature, Quantification, Formal Epistemology, Numerical Cognition, Collective Intentionality, Speech Acts.

Presentations

Refereed conference presentations

- September 2026 (forthcoming) **The Cost of Grouping: A Probabilistic Account of Anti-Duality Inferences from Universal Quantifiers.** *The 5th International Conference on Human and Artificial Rationalities*, IPC - Facultés Libres de Philosophie et de Psychologie, Paris, France.
- Apr 2025 **Silent classifiers are strange, and big numbers are stranger.** *ULAB 2025*, University College London, London, UK. Slides available on request.

Other conference presentations

- September 2026 **A MaxEnt Optimality Theory Grammar for Alternatives.** *Psychology & Language Sciences PhD Day*, University College London, London, UK.
- July 2026 **Anti-Duality without Conceptual Alternatives?** *Student Session, 7th Crete Summer School of Linguistics*, University of Crete, Rethymnon, Crete.

Departmental and lab presentations

- May 2026 **Anti-Duality Inferences and the Mental Representations of Universal Quantifiers.** *Semantics & Pragmatics Reading Group*, University College London, London, UK.
- March 2026 **On Conceptual Alternatives.** *Pragmatics Research Seminar*, University College London, London, UK. Handout available on request.
- December 2025 **Expressives, Miratives and Conventional Implicature.** *Pragmatics Research Seminar*, University College London, London, UK. Handout available on request.
- May 2025 **Clusters and Numeral-Imprecision in Quasi-Count Nouns.** *UCL Linguistics Society*, London, UK. Slides available on request.

Teaching

- Spring 2027 **Interdisciplinary Game Theory (BASC0017)**, *Teaching Assistant*, University College London, London, UK. (Module leader: Manuela Dal Borgo)
- Spring 2026 **Presuppositions as Anaphora and Proof-Theoretic Semantics**, *Guest lecture for UCL Linguistics Short Course on Presupposition*, University College London, London, UK. (Course leader: Tim Jantarungsee)
- Winter 2025 **Pragmatics in a Social Context (PLIN0017)**, *Teaching Assistant*, University College London, London, UK. (Module leader: Richard Breheny)

Service

- 2025 – 2026 **Webmaster**, *Undergraduate Linguistics Association of Britain*
2025 **Marker**, *United Kingdom Linguistics Olympiad*
2024 – 2025 **Local Chair**, *ULAB 2025 Conference*, University College London

Languages & Skills

- Natural Languages English (Native), Polish (Heritage), Japanese (Lower Intermediate), Tagalog (Fieldwork)
Formal Languages Python, R, $\text{\LaTeX}$, Haskell
Technical Tools Git, GitHub Actions, Linux CLI, Docker, Redis, Linux (Ubuntu/RHEL)
Library & Research Tools Gorilla, Amazon Mechanical Turk, Prolific

Honours and Awards

- PALS Conference Fund Awarded £1000 in June 2026 by UCL PALS to attend the 7th Crete Summer School of Linguistics.
Global Experience Bursary Awarded twice (Mar 2023, Mar 2024) by UCL to attend summer schools in Groningen, Utrecht & Leuven.

Projects

- Anti-Duality Inferences from Universal Quantifiers *A probabilistic and decision-theoretic account of lexical competition* (In progress)
○ Developing a computational model of anti-duality effects in universal quantification, with a focus on why French *tous* and English *every* (but not *each*) are degraded in dual contexts.
○ Arguing against a primitive ‘dual’ core concept by deriving the relevant contrasts from probabilistic competition between largely equivalent lexical items using a mentalistic, internalist semantics.
○ Integrating formal semantics, psycholinguistic work on the *each/every* distinction, and information-theoretic tools to model how first-order and group-based verification strategies affect quantifier choice.
○ Connecting Maximise Presupposition-like effects with speaker-side utility, generating predictions for French *les deux*, English *both*, and gradient low-cardinality preferences more generally.

BSc Thesis *‘Clusters’ and Numeral Imprecision in Quasi-Count Nouns* (Supervisor: Prof. Yasutada Sudo)

- Developed a formal account of quasi-count nouns (e.g., *cattle*, *vermin*) using a mereotopological extension of Type Theory with Records (TTR).
- Proposed that such nouns necessarily make reference to ‘clustered’ entities, explaining their resistance to precise counting and compatibility with vague numerals.
- Integrated perspectives from formal semantics, philosophy, cognitive science, and computational modelling to address issues in vagueness, individuation, and meaning representation.

Professional Employment

Sep 2025 – **OneDesk IT Assistant**, *UCL Information Services Division*, London, UK

- Present
- Frontline support across UCLs Microsoft 365/Azure AD environment, including account issues, shared mailboxes, MFA, VPN (Cisco Secure Client), eduroam/UCL Device Wi-Fi, and Desktop@UCL Anywhere (Citrix Workspace).
 - Technical triage for network drives (Filestore), authentication faults, remote access, and service-specific portals (MyAccount, MyServices/ServiceNow, Device Provisioning), with escalation to Network and Endpoint Services.

Sep 2023 – **Student Ambassador**, *UCL Faculty of Brain Sciences*, London, UK

- Jun 2024
- Represented UCL at outreach events targeting prospective students.
 - Supported open days for Brain Sciences and Linguistics departments.
 - Contributed to public engagement via faculty-affiliated social media.
 - Provided guidance to students on accessing digital university resources.

Aug 2022 – **Private Tutor**, *Freelance*, London, UK

- Jun 2024
- Tutored GCSE and A-Level students in Mathematics, Further Maths, and Geography.
 - Provided Olympiad coaching focused on problem-solving and mathematical reasoning.
 - Helped students achieve top grades (A–A*) and secure Russell Group admissions.

Sep 2023 – **Transition Mentor**, *UCL Department of Linguistics*, London, UK

- Jun 2024
- Organised orientation and peer support events for new Linguistics students.
 - Ran weekly drop-in sessions on academic planning and study skills.
 - Delivered workshops on university systems and time management.
 - Nominated for UCLs Unsung Hero award for mentorship excellence.
